ALLfit Aluminium Skirting Product Information

1. FEATURES AND BENEFITS

- ✂ No Clamp
No Clamp Marks This means that the full length of the product is usable rather than wasting the ends to unsightly production clamp marks
- ✂ Pre-Drilled
Holes are pre-drilled at 10mm from the end of each 3.6metre length and then at 450mm and 600mm centres which ensures that you will easily find wall studs - the fact that the holes are pre-drilled also speeds up the installation process and ensures that it can be done by one person
- ✂ Mill Finish
The Product can be supplied in Mill Finish which enables customers to arrange their own powder coating should they wish to do so - Mill Finish product is supplied pre-drilled but not pre-taped
- ✂ Anodised
Clear anodising ensures that the MEDIA BLAST finish will absorb minor knocks without spoiling the visual appeal - the Anodised product is supplied pre-drilled and pre-taped
- ✂ Power Coated
The product can be supplied Power Coated in a wide range of colours to suit your clients' installation- the Power Coated product is supplied pre-drilled and pre-taped
- ✂ Insert Colours
A choice of black or grey rubber inserts allows you to customise the finished look to suit your client's needs
- ✂ Corner Stakes
Corner stakes help to ensure the rigidity of the system - using corner stakes also simplifies the task of joining aluminium skirting at the corners
