Concepts & Production of Modern Furniture

EXPERIENCE ERGO

Concepts & Production of Modern Furniture

With over 17 years of experience, we at CPM are the leading manufacturer and distributor of customized office fixtures.

Our systematic work approach, ingenious products range, in-house architectural capability and after sales services have amplified our presence across India, through a sturdy network.

The ISO 9001, 14001, 45001, BIFMA certification gives the magnitude of our abilities and the speck of our quality, an undisputed testimony.

With an extra edge in designing and manufacturing modular office furniture, CPM has for all time been on crest in the list of office furniture companies. The company specializes in whirling vacant, hollow spaces to vigorous and aesthetical environs.

Being an innovation led organization, CPM believes that every space has some concealed meaning within it. And our charge is to weave that out with our striking designs and modular systems to let that space enjoy its true sense.

We are entirely dedicated to enhancing the quality to office life by providing quality products, truly driven with comfort and sophistication. In a way changing the conventional definition of a office space from boredom hours to enjoyable moments.

www.cpm systems.in

Our efficiency in creating innovation enhances the artistry of the workspace and provides vitality to the office space to counter with spontaneity and unconditional aptness

CENTER & CORNER TABLE

Ergo Touch center and corner table series reflects the design philosophy of form following function prevalent in modernism. Our designs represents the ideals of cutting excess, practicality and an absence of decoration.

WIRE MANAGEMENT

Vertical & Horizontal Wiring

All models support vertical & horizontal high capacity wiring system, ranging from 2200mm-6000mm, it can hold 30-50 network/electrical wires of 5mm thickness, which ensures a great wiring solution. All raceway systems are made of aluminium extruded sections in a snapfit formation, giving humanistic and careful design, terminating the inconvenience while installing and maintaining it. Panel based partitions also extends flexibility to flow wiring through panels vertically, giving access for wiring boards at any location. Besides one raceway provided at the bottom of partition level, horizontal raceway can also be installed over or under worktop surfaces. The enough safe distance between the two avoids their interference.
